## **DETAILED ACTION**

### **INFORMATION CONCERNING RESPONSES**

#### ***Allowable Subject Matter***

1. **Claims 1-4,6,7,9-15,17 and 22** are allowed:
2. The following is an examiner's statement of reason for allowance: Applicant's arguments filed on October 29, 2010, in response to the office action mailed on August 31, 2010, have been fully considered and are persuasive. In particular, the invention claimed in the instant application has the ability to buffer a first group of symbols into a first buffer and buffer digital samples corresponding to later paths of the group of symbols in a second buffer. Furthermore, the system is capable of gating off a processor clock on completion of samples processing while simultaneously buffering the next group of symbols, and the claims specifically state that the processor is enabled upon the completion of buffering *and* occurrence of the next group of data samples. The instant application also discloses the same process as it relates to a second group of symbols and a third group of symbols.
3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
